

**Join Us on October 20 & 27, 2021 for the  
Emerald City Quilt Workshop  
Taught by Colleen Wise**

**Colleen** will be leading us through “Emerald City” in a Zoom workshop. These blocks not only look like three-dimensional pyramids, they also appear to float above the surface of the quilt! Emerald City blocks are strip pieced and simple to construct. Careful attention to value will make the illusion appear. We’ll also talk about shadows and how to choose fabrics to enhance that sense of three dimensions. So elegant and so easy—and so exciting to see the results!

*“If you’re a beginner, my workshops are easy and fun. And if you’re a veteran, you’ll learn to apply old skills (like value) in a different way, and add new skills (like creating a light source and casting shadows). My goal is not that you finish the project, but that you learn something that will help you become a more confident quilter outside the classroom.”*
